

WHAT'S IN YOUR BABY'S BOTTLE?

Join us for a Toxic Baby Bottle Swap

State Senator Fran Pavley,
Physicians for Social Responsibility,
California Latinas for Reproductive Justice,
Black Women for Wellness,
The Help Group Center for Autism Spectrum Disorders,
and Green to Grow

are proud to announce a Toxic baby bottle swap

featuring

DR. HARVEY KARP

World - Renowned Pediatrician and
Author of "The Happiest Baby on the Block"

AMY SMART

Actor
& Environmental Advocate

Many baby bottles contain the toxic chemical Bisphenol-A (BPA) which has been linked to early puberty, childhood obesity, breast cancer and neurological and behavioral changes, including autism and hyperactivity. Sen. Pavley's SB 797 would ban BPA in food and beverage containers designed for children 3 years and younger.

**THE FIRST 1,000 PARENTS WHO BRING IN AN OLD BABY BOTTLE
CAN SWAP IT FOR A NEW GREEN TO GROW BPA-FREE BABY BOTTLE**
